<input type="checkbox"/>	SmartBiz 256K Light	20GB + 20GB bonus off-peak per month	\$ 708.00 pa

Additional Items

<input checked="" type="checkbox"/>	Excess Data usage above your allowance (only applies if you request a non-shaped service)	\$ 0.01 per MB
-------------------------------------	---	----------------

All plans listed above include a monthly data allowance, plus a bonus 'off-peak' data allowance. Standard data usage is between 8am and midnight, 7 days. Off-peak times are midnight to 8am, 7 days.

All above plans are fixed price services and by default include a shaping feature for your protection. Should you exceed either the peak or off-peak (or both) allowance, the service will be reduced to 128K/128K speed for the remainder of that month. This is called 'shaping'. No additional charges will apply if the service remains shaped. Should full speed be required, the shaping feature may be removed online via our member services area. This means the service will always operate at full speed, with any data usage above the allowance being billed at the abovementioned excess rate.

SmartBiz ADSL Application Form – ADSL Service & Hardware Page

Installation Requirements	
Central Splitter - recommended for all business installations to ensure the best speed and reliability from your service. A central splitter is <u>mandatory</u> if you have a phone system, security system or other hard-connected device on the same line as ADSL. If ordered upon application, cost for parts & standard labour \$179 (Adelaide Metro Area). Name/Phone to contact to make an appointment :	Do you need a central splitter? YES / NO
Professional Installation - we recommend your services be installed professionally, especially if you are setting up Wireless connectivity. If you do not have a computer professional looking after your network, we can have a reputable installer contact you and quote on you installation services. There is no obligation to accept their quote. Name/Phone to contact to make an appointment :	Have an Installer contact you ? YES / NO

Network Redundancy – SmartBiz AnyG Backup	
While ADSL is extremely reliable, the fact is that it's a single service to your premises. In the rare event of a service fault, your business may experience loss of connectivity. We know that Internet access is critical to your business so including a backup service into your network is highly recommended. Our SmartBiz AnyG Backup service is a secondary Internet service delivered via our AnyG mobile broadband solution. Cost is \$59 Setup + \$180 per annum. All Billion ADSL hardware offered with our SmartBiz ADSL plans includes the ability to automatically switch your network to the AnyG service should your primary ADSL connection fail. If you have equipment other than our Billion range, we suggest you speak to your computer professional regarding integration of this backup solution into your network.	Would you like an AnyG Backup service? YES / NO

Domain Name Hosting	
Your SmartBiz ADSL service includes FREE hosting of your domain name with email for up to 10 users. This means you can use email addresses such as name@yourbusiness.com.au . If you do not yet have a domain, Adam Internet can register your choice of name for two years at a cost of \$69. If you have a domain already, please talk to one of our Business Solutions team about moving that domain to Adam Internet. Once your domain is with Adam Internet for email purposes, we can also provide 25MB space for your own website for only \$140 extra per year.	
<input type="checkbox"/> I do not need domain registration <input type="checkbox"/> YES - please register the following domain for my business : _____ .com.au <input type="checkbox"/> YES – I would also like to upgrade to include space for a website at \$140 per annum	

This is the end of the application form. Please scan this form as a JPG or PDF and email to business@adam.com.au, or you may fax the form to (08) 8231 0223.
